

MPR SERIES

Radio / Television Satellite Receiver and Decoder

The TeleDelta MPR Series platform is a broadcast style, receiver/decoder and modulator for multi-format, multi-standard television and radio and IP content distribution.

The space conscious 1RU MPR will support various formats, including MPEG2 and MPEG4 high definition and standard definition content delivery, the MPR can receive various inputs including DVB-S/S2, DVB-T/C, decrypt, process and select programs and output as various formats including HD/SD-SDI, Analogue A/V, AES/EBU, HDMI, ASI and IP.

Advanced feature options such as ProMPEG FEC, MPE IP decoding and multi-transponder viewing along with remote web-based management make the TeleDelta MPR Series a versatile satellite and RF distribution solution.

MPR Series Key Features

- Remote Management + Front Panel control
- HD/SD-SDI, analogue audio/video, AES/EBU, HDMI, ASI and IP (SPTS/MTPS) output options.
- Multi-channel decryption CI slots
- ProMPEG FEC supported (option)
- Balanced/ unbalanced audio support
- Program multiplexing, filtering, EPG insertion and cherry picking supported
- SPTS and MPTS IPTV outputs
- Local and Remote Management options
- Optioned Multi-format Audio/ Video Support (AAC, -AAC v1+v2, MPEG-2, MPEG-4)

Common Applications

- Television distribution
- Radio rebroadcast
- SNG truck monitoring
- VAST coverage
- Remote area communities
- Mining / resource camps

Control and Management

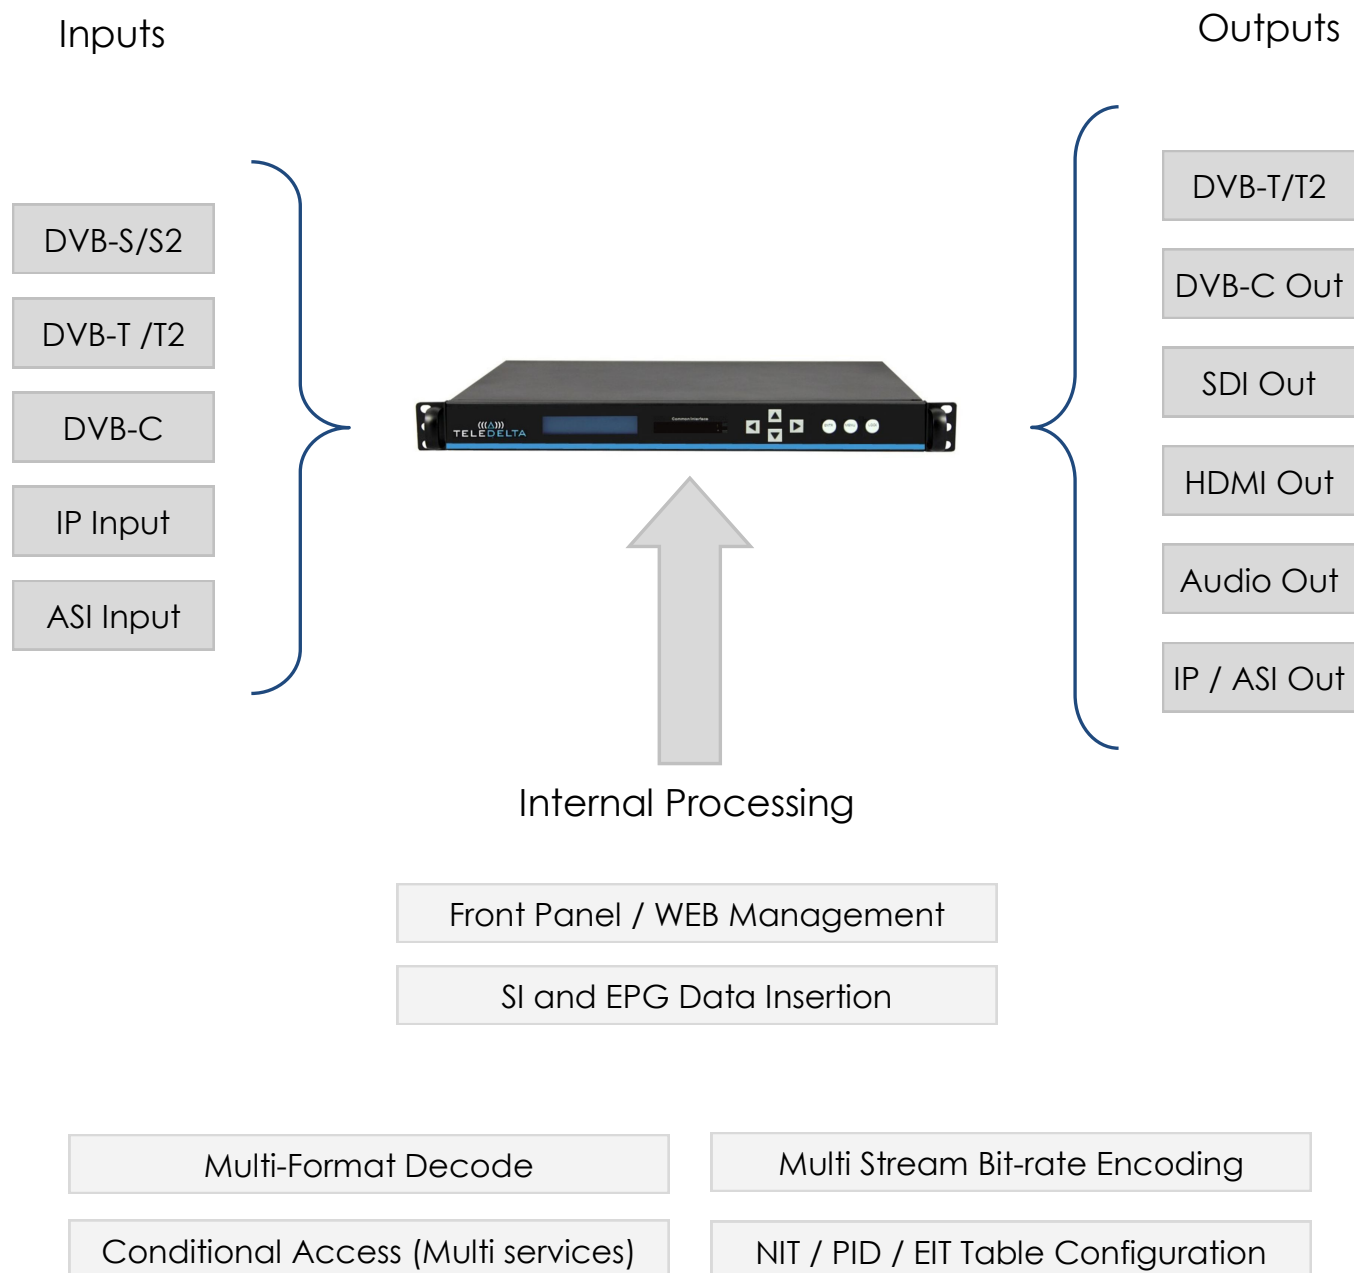

The TeleDelta MPR's built-in network web management offers control and monitoring functionality from remote locations, front panel LCD and control interface allows for onsite adjustments and configuration. Users can manage and configure all parameters independently or as a full system via both management interfaces. Supporting SNMP, the TeleDelta MPR series can be customised for different radio or television applications.

Receiver and Conditional Access Specification

| DVB-S/S2 Satellite Receiver Module | |
|------------------------------------|--|
| Inputs | 2x RF Inputs, 75ohm |
| Frequency Range | 950-2150 MHz |
| Constellation | QPSK, 8PSK |
| DVB-S2 | 1 ~ 31.5MSPs (QPSK 1/2, 3/5, 2/3, 3/4, 4/5, 5/6, 8/9, 9/10) (8PSK: 3/5, 2/3, 3/4, 5/6, 8/9, 9/10) |
| Signal Level | (-65dBm) ~ (-25dBm) |
| Acquisition Range | +/- 5MHz |
| Tuner Step Size | 100 KHz |
| Return Loss | >10 dB |
| Vertical: | 11.5V~14.0V |
| Horizontal: | 16.0V~19.0V |
| 22K Switch | On/off |

| DVB-CI Module | |
|---------------|---|
| Connector | 2x Independent CI Slots |
| CA Module | Multicrypt/ Simulcrypt, Hot Plug |
| CAS Support | Irdeto, Conax, Viaccess, Norel-SupperTV, CTI, Nagravision |
| Standard | EN50221 |

| Video / Audio Support | |
|-----------------------|--|
| Video Decoding | MPEG-2 / MPEG 4, SD and HD |
| Video Format | PAL, PAL-M/N (Standard - MPEG-1 L2) (Optional - AC-3, E-AC-3, HE-AAC v1,v2) |
| Audio Decoding | (Standard - MPEG-1 L2) (Optional - AC-3, E-AC-3, HE-AAC v1,v2) |
| Audio Level | Adjustable -64 ~ 0dBm |

| IP - Data Input / Output | |
|--------------------------|-----------------------------------|
| Connector | RJ45 |
| Format Support | UDP and RTP |
| Output Addressing | 8x Simultaneous UDP / RTP Streams |
| Bit-Rate | Constant Rate |

| Management and Monitoring | |
|---------------------------|----------------------------------|
| IP | Web-based IP Management |
| Front Panel | LCD, Alarming and Button Control |
| GPO | Relay Closures and Alarming |
| IP Data | UDP/RTP IP datastream monitoring |

Ordering Options

| Part No. | Ordering Suffix | Description |
|------------------|-----------------|---|
| Frames: | | |
| MPR | | MPR 1RU Rack-Chassis, Dual Conditional Access Slots - IP and Front Panel Management, GPIO |
| Modules: | | |
| MPR-BASE | MPR-BASE | MPR Frame- DVB-S/S2 Input, XLR Audio, HDMI, Analog AV out |
| MPR-SDI | MPR-SDI | MPR Frame - DVB-S/S2 Input, HD/SD-SDI, HDMI, Analog AV out |
| MPR-IP | MPR-IP | MPR Frame - DVB-S/S2 Input, IP in/out, SDI,HDMI, Analog AV out |
| Optional Modules | | |
| -SAT2 | MPR-XXX-SAT2 | Dual DVB-S/S2 Tuner Module |
| -T | MPR-XXX-T | MPR DVB-T/T2 Tuner Module |
| -T2 | MPR-XXX-T2 | Dual DVB-T/T2 Tuner Module |
| -C | MPR-XXX-C | DVB-C Tuner Module |
| -C2 | MPR-XXX-C2 | Dual DVB-C Tuner Module |
| -MODT | MPR-XXX-MODT | COFDM DVB-T Modulator Output |
